Log Splitter

AT28437

Specification :

- Splits upto 100 logs per hour
- 4 Ton of splitting ram power
- Log splitting capacity 37cm x 25cm
- Powerful 2HP motor
- Hydraulic cylinder with auto return

Optional Accessories:

Cross Wedge (for splitting the log
4 wood pieces at one time)
Stand

Feature :

Ideal for residential and country houses, small holdings and farms where log splitting is required for feeding fires and ovens.

No more swinging heavy and dangerous axes around. Self lubricating hydraulic arm requires no maintenance.

Two wheels and inbuilt handle make moving the splitter around easy.

Item	Max. Wood Dia.	Max. Wood Length	Splitter Power	Power Watt	Motor Speed	Cylinder Speed (Forward)	Cylinder Speed (Return)	Operating Pressure
AT28437	25 cm	37 cm	4 Ton	1500	2850	4 cm / sec.	5 cm / sec.	160 Bar

AT28552H

Specification :

- Splits upto 100 logs per hour
- 5 Ton of splitting ram power
- Log splitting capacity 52cm x 25cm
- Powerful 2.1 kw motor
- Hydraulic cylinder with auto return
- With adjustable head inside the chassis and additional stopper for fast splitting shorter wood log

Optional Accessories:

Cross Wedge (for splitting the log
4 wood pieces at one time)
Stand

Feature :

This robust log splitter is effortlessly cracks wood of lengths of 25 to 52cm with its 2.1 kw electric motor. The safety operation is ensured by two-hand control, high rate and 6 ton of splitting power. The splits in horizontal position at a comfortable and non-fatiguing height, it can also be placed on a work bench. Rust-preventing Power coating to prolong the operating service life. Stable wheel assembly allows easy transportation.

Item	Max. Wood Dia.	Max. Wood Length	Splitter Power	Power Watt	Motor Speed	Cylinder Speed (Forward)	Cylinder Speed (Return)	Operating Pressure
AT28552H	25 cm	52 cm	5 Ton	2100	2850	3 - 4 cm / sec.	8 cm / sec	160 Bar

Log Circular Saw

TT8720

Designed to take the strain and effort out of cutting logs and firewood. This log saw allows the operator to work more safely and at a comfortable height. It is compact but extremely rigid.

- Rugged welded steel construction for long service life
- Huge cutting capacity
- Including length stop
- With its 400 mm TCT saw blade it is optimally capable for sawing branches and stems
- Stable, torsion free steel frame and swivel

Item	Max. Cutting Dia. mm	Max. Cutting Length cm	Power watt	Speed rpm	TCT Saw Blade mm
TT8720	140	30 - 100	1500	2800	Ø400 x 3.0 x Ø30 x 40T

TT8700

The log saw offer new developments. It is compact but extremely rigid. Has large capacity but is easy to maneuver. It has a massive deep cuffing capacity.

Over the stable, torsion free construction, sit solid, welded, powder coated panels for tough working conditions. There is no shower of falling wood chips as these are removed away from the user.

The log saw has no problem even with excessive use as the thermo-protector cuts off the power if it is overloaded and gets too hot for the robust drive. Thanks to the standard wheel base your equipment can get very quickly from place to place for you to do your work.

Item	Max. Cutting Dia. mm	Max. Cutting Length cm	Power watt	Speed rpm	TCT Saw Blade mm
TT8700	180	200	2200	2850	Ø500 x 2.6 x Ø30 x 40T
