STV043

Parallel Jaw Clamp

- Prevents the lower jaw sliding or un-clamping, let the lower jaw clip and stop anywhere at the rail
- Can be taken off by hand for quickly changing the sliding arm direction to use for spreading
- Also can be a hold with the fixed arm to put on the table for horizontal clamping
- Anti-Slip System: effectively prevents the clamp from dislodging or slipping away, can also hold the sliding arm anywhere on the rail
- Clamping force 200 kgf

Parallel jaw:

Material: Polyamide
The large clamping area and parallel jaws allow the work easier and prevent damaging you workpiece.

Pad:

Material: steel

Screw:

Hardened screws for strong tightening

Arm:
